

Activity

## Create Your Own Sunflower

---

**Create our own sunflower, using the following instructions:**

1. Use a 12" x 18" piece of drawing paper.
2. Place your paper lengthwise.
3. Draw a line about four inches from the bottom of the paper.
4. Draw a vase in the center of the line.
5. Draw several stems coming out of the vase.
6. Use torn tissue paper to create the petals of the flower.

**Wait for your teacher to pass out cups of glue thinned with water and small brushes.**

7. Demonstrate to students how to apply tissue paper pieces by putting glue on paper and placing tissue paper pieces in glue.
8. Overlap pieces of tissue paper until all petals are formed.
